Expanding the Horizons of
Medical Office Technology

MedVanced EMR Consulting Services

Educational Seminar

A 1 hour seminar concentrating on what you need to know regarding an EMR, including financial incentives vs. risks, how to use technology to become a more efficient medical care provider, and the steps to successful implementation.

Business Process Analysis

An analysis of your current office work flow and business processes. This will include specific staff responsibilities and frequency and duration of tasks. A report will be provided of the results.

Hardware Search & Selection

As industry experts, we will provide you with our assessment of best products to match your specific needs and preferences.

EMR Search & Selection

As industry experts, we will provide you with our assessment of best products to match your specific needs and preferences.

Pre-Implementation Prep

Implementation of an EMR requires multiple hours dedicated to preparing the practice for transition. In order to relieve the burden of learning a new system under the added workloads, this service is designed to assist your staff during this critical time alleviating slumps in productivity. Services include scanning documents into electronic charts, creating custom note templates, and uploading practice forms.

Implementation Assistance

During the EMR implementation, we will participate in training, assist with staff training, and assist with support. Your practice will not suffer from the need to work out the kinks with your EMR system. We will handle issues with the vendor so day-to-day operations continue to run smoothly.

Custom Packages

Custom Packages including different services are available. Will provide a custom quote based on your needs.
